PROFESSIONAL SUMMARY

Aspiring Full Stack Developer with hands-on experience in building and deploying real-world applications using React, JavaScript, and Java. Skilled in REST API integration, database management, and developing scalable, responsive solutions with a strong foundation in frontend and backend authentication flows.

SKILLS

Languages: Java, JavaScript, Python

Frontend: HTML, CSS, Tailwind CSS, React.js

Backend: Node.js, Express.js, Spring Boot

Databases: MySQL, PostgreSQL, MongoDB

Tools & Cloud: Git, GitHub, Postman, Vercel, VS Code

Core: REST APIs, Data Structures & Algorithms, Object-Oriented Programming (OOP)

Soft Skills: Communication, Problem Solving, Team Collaboration, Group Discussion

EXPERIENCE

Java Full Stack Intern | Infosys Springboard

Oct 2025 – Dec 2025

- Contributed to full-stack development in a team environment, participated in code reviews and project discussions, and delivered 7 major project milestones
- Created backend logic and managed version control using Git, improving workflow efficiency by ~25%

Full Stack Developer Intern | Smarted Innovations

Jul 2025 – Sep 2025

- Built full-stack features using React, Node.js, and MongoDB, improving application performance
- Designed REST APIs to handle structured data operations, streamlining workflows and reducing manual effort by ~15–20%

Frontend Web Developer Intern | IBM Edunet Foundation (AICTE)

Aug 2025 (Training Program)

- Developed responsive web applications using HTML5, CSS3, and JavaScript (ES6+)
- Enhanced user-friendly interfaces with Flexbox, CSS Grid, and media queries for cross-device compatibility

PROJECTS

Movie Review Platform | Full Stack Web Application | [GitHub](#) | [Live](#)

- Built a full-stack application supporting user authentication, reviews, and ratings, handling multiple user interactions efficiently at scale
- Integrated TMDb API for real-time data and recommendations, improving engagement by ~20%

Smart Road System (Smart Traffic & Bus Management System) | Full Stack Web Application | [GitHub](#)

- Enhanced a real-time system using TypeScript and Firebase for traffic monitoring and bus management
- Implemented authentication and live updates, improving system responsiveness by ~25%

EduVault | Web Application | [GitHub](#) | [Live](#)

- Developed a responsive web app with authentication and session-based caching
- Implemented local/session storage, improving load performance by ~25%

Airbnb Clone | Full Stack Application | [GitHub](#)

- Built a rental platform with listings, bookings, and authentication using MERN stack
- Designed REST APIs and optimized data handling, reducing response time by ~20%

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science and Engineering

Mohan Babu University | 2023 – Present | CGPA: 9.73

Sri Chaitanya Junior College – Intermediate (MPC)

2021–2023 | Percentage: 98.6

Vani High School (English Medium) – SSC

2020–2021 | Percentage: 100

CERTIFICATIONS

- IBM Full Stack JavaScript Developer
- Infosys Springboard – Java Development
- Infosys Springboard – Pragati Cohort-6
